

# Cartooning of an image using MATLAB

## Read Me

11 April, 2019

### 1 Run with GUI

1. Run "GUIof\_Image\_Cartooning.m" file in MATLAB.
2. This will open a GUI.
3. Then there is a button "Select image" which will take images from anywhere in pc.
4. "Generate Image(Paper)" button will generate the paper model output.
5. "Generate Image(Own Model)" button will generate own model output.
